WOMAN FAST IN MACHINE COGS

Mrs. Edward Shaffer is Whirled in
Circle Several Times when her
Clothing is Caught in Cogs of
Mill Machinery.

Stepping too near one of the grain
grinders in operation in the mill at
East Berlin on Friday, Mrs. Edward E.
Shaffer, wife of the proprietor, was
seriously injured when her clothes
caught in the cogs of the machine, and
she was hurled in a circle several
times before the machine could be
stopped.

She was walking near the machine
when her dress caught. In a moment
she was whirled around through the
air, and finally was thrown to the
floor. One of her legs was broken
above the ankle, and she received a
number of gashes on the head. She
was also badly bruised, but is not
thought to have sustained internal in-
juries.

Dr. Elgin was summoned and dressed
the injuries and her recovery is ex-
pected.

WHITE SWANS IN YORK COUNTY

Guns along the Susquehanna
River are making the most of a visit
of big white swans. A flock in which
77 of the stately birds were counted
was seen upon the swollen stream near
Long Level. The birds were spread
out in a file about an eighth of a mile
long. Two that were killed by the
Lucas brothers, residing in that vicin-
ity, each tipped the scale at 20
pounds. In four shots John Shank,
pilot of the Wild Cat Falls ferryboat,
killed three swans and crippled a fourth.
The three birds weighed 40
pounds, the largest being a 17 pounder.

DR. GRANVILLE WILL REMAIN

Gettysburg College President Feels
it his Duty to Remain as Head of
Local Institution. Friends of Col-
lege Glad.

President Granville has decided to
refuse the opportunity to become head
of Gustavus Adolphus College, the
presidency of which had been offered
him, and he will remain here as head
of the local institution.

Announcement of the election of
Dr. Granville to the presidency of the
Minnesota College was made in these
columns last Tuesday and he has had
the matter under consideration for
only a few days. In giving his reasons
for refusing the western offer Dr. Gran-
ville stated that he felt it his duty to
stay here and that at this stage of the
affairs of the local college he did not
feel that it would be right for him to
leave.

The news that Dr. Granville will
remain will be most acceptable to the
many friends of the college and of Dr.
Granville himself. He came here from
Yale less than two years ago in order
to render what service he could to Get-
tysburg, even though it meant a de-
crease in his own income of exactly
one half, and the salary consideration
at Gustavus Adolphus did not enter
into his decision to remain here.

ASPERS

Aspers, Apr. 6—Eli D. Guise has

on his house where the storm, through

on part of it, had considerably damag-
ed the side of the house.

Farmers are now in the fields plow-
ing and the women have begun to
make garden which looks like winter
has departed at last.

Mrs. Savilla Schlosser, wife of
George Schlosser died on Thursday sev-

She had only been sick a short time.
She is survived by the following chil-
dren: Mrs. Edward Wierman; Mrs.
Harvey Cluck; Mrs. Daniel Goche-
nauer and Mr. Ira Schlosser who is on
the home farm. Interment was made
on Sunday in Arendtsville Cemetery.

vices. Mrs. Schlosser was always ex-
tremely kind and good to everybody
and a loving mother has gone to her
reward.

roof repaired.

Wednesday.

Frank Funt is having his porches
repaired by having new walls placed
under them.

wall of his farm house with date of

UNFORTUNATE

George Willet, of Kingsdale, met
with an accident in Hanover, on Thurs-
day. He drove a four horse team to
Hanover, to purchase furniture at the
store of Peter Masenheimer. While
feeding the horses at noon, in a stable
nearby, his left hand was caught in
the door when closing it, mashing the
third finger. The pain was so great
that Mr. Willet fainted, falling upon
a stone, which lacerated his face. Dr.
Edward W. Stick was called and he
dressed the wounds.

PLANT THOUSANDS OF PEACH TREES

South Mountain Growers Planting
Peach Trees by Tens of Thou-
sands. Say the Old Trees were
Badly Nipped.

The planting of a large number of
peach trees, enlarging old orchards
and starting new ones, is now going
on along the South Mountain belt.

The Lookout Mountain Orchard com-
pany composed of Lancelot Jacques,
Boaz Gardinour and about eight other
experienced fruit growers of Smithsburg
who are operating about two miles
south of Keedysville, on a continua-
tion of the mountain soil on which
the orchards about Smithsburg are
located, are now busy setting out
30,000 peach and apple trees. They
have 30 men at work with a number of
horses. Mr. Jacques is personally
looking after the work.

The company will have 45,000 peach
trees and many apple trees at Keedys-
ville after the spring planting is com-
pleted. It is composed of men who
have been successful with orchards of
about 20 acres and they figure that the
same principles put into operation on
a large scale will be proportionately
successful. The company will have a
siding put in on the Washington
County branch of the B. and O. which
will give them a loading place for the
city markets a mile from the orchards.

Many peach buds are being exam-
ined in the peach belt. The universal
verdict is that but very few buds are
alive under an altitude of 600 or 700
feet. There will be peaches on the
higher altitudes, but not a big crop.

MANY ASK TO SEE MURDERER HANG

Mont Alto Murderer to Hang on April
Thirtieth. Franklin County Sheriff
Receives Many Requests for
Admission.

Over a thousand persons have made
written or verbal request of Sheriff
Walker for admission to the Franklin
County jail yard on Tuesday, April 30,
that they may see the hanging of Wil-
liam Reed who slew Sarah Mathna at
Mont Alto.

Of course it would be impossible as
well as contrary to the spirit of the
law to comply with any material part
of these requests and the sheriff accord-
ingly feels that he should grant none,
or at least no more than the law im-
plies should attend.

The statute provides that a jury of
witnesses, twelve in number, shall re-
present the state and certify that the
sentence of the court has been execut-
ed. Beyond the officers of the law, the
spiritual advisers of the prisoner, the
twelve witnesses and such jail attend-
ants as are required properly to carry
out the arrangements there is usually
little or no provision made for onlook-
ers. From this statement the thousand
and more applicants may see that they
have no cause to complain of disap-
pointment by the sheriff.

The sheriff is not required to read
the death warrant to the doomed man
and as Reed has already been advised
of the date fixed for his execution it is
quite likely the officer will dispense
with this formality.

Carrying out his own dignified and
proper inclinations and complying as
well with the spirit of the law Sheriff
Walker will see that the execution is
performed with becoming solemnity
and decorum. Beyond this a curious
public can expect nothing.

H. N. GITT

To the Democratic Voters of the Twentieth Congressional District.

Mr. Gitt, who is not an active candidate, has consented to accept the Democratic nomination for congress, if the voters of this district consider him the most logical candidate, and if nominated, will make an aggressive campaign to win.

Mr. Gitt is not only popular in his home town, Hanover, but in what is known as the Democratic belt as well, and is unquestionably the strongest nominee who can be placed on the Democratic ticket, for the further reason that he is also well known throughout the whole of York and Adams counties.

He has always been an active and earnest worker in the interests of Democracy and always anxious to bring about harmony in the party. If there be any Democrat, of whom there ought to be many, who can redeem this district, there can be no doubt that he is one of them. He is a man of affairs, with more general personal knowledge and experience of the agricultural, industrial and commercial interests of this district than any other one man and is undoubtedly well qualified to represent this important congressional district in the House of Congress.

In view of his exceptionally broad, wide and abundant experience on all matters pertaining to the vital issues of the day, he is peculiarly fitted to represent the people of this district, especially the farmer, the mechanic, the working man and the merchant, in congress.

This congressional district for a number of years has been misrepresented in Congress by our present representative, a member of the party in the minority in the district. It is high time that this condition be changed and we believe that Mr. Gitt is the man who, if nominated, can and will bring victory to his party.

We, therefore, appeal to the Democratic voters of this, the 20th congressional district, to vote for Mr. Gitt on April 13th, for we earnestly believe that his nomination will insure the success of our party at the polls in November.

Yours very truly,
Committee of Democrats interested in the success of the Party

TAFT OUTLINES ECONOMY PLAN

New Message to Congress on the Subject.

MANY WAYS TO SAVE MONEY

Urges Congress to Take Steps to Do Away With Many Political Sinecures.

Washington, April 5. — President Taft sent to congress his second message of the present year on economy and efficiency in the government service. He recommended the passage of legislation designed to save more than \$11,000,000 annually.

Probably his two most striking proposals are that the local government offices in the treasury, postoffice, justice, interior and commerce and labor departments, be placed in the classified service, taking them out of politics, and that the revenue cutter service be consolidated with the light-house service in the department of commerce and labor.

By the first change the president says congress could effect a saving of at least \$10,000,000 annually and, although in this message he gives no figures for the consolidation of the two services of the sea, in a previous message on the same subject, he predicted economies that would total about \$1,000,000 yearly.

The president closes his message with an appeal for the \$200,000 appropriation necessary to support the economy and efficiency commission for another year, with \$50,000 additional for the publication of the commission's findings.

President Taft's chief recommendations for economies in the government, outlined in the special message to congress, are as follows:

Placing of pension agents in classified service; estimated saving \$62,000 annually.

Abolition of office of receiver of district land offices; estimated saving \$200,000 annually.

Transfer of "political appointees" in internal revenue and customs services to classified service.

Consolidation of lighthouse and life saving services into bureau of light houses; estimated saving, \$100,000.

Transfer of vessels and equipment of revenue cutter service from treasury to commerce and labor department; estimated saving about \$1,000,000.

Consolidation of auditing officers of the government; estimated saving of \$200,000.

Discontinuance of mileage allowances for government travel and a per diem allowance for officers and employees in place of "subsistence."

ELOPING HEIRESS HOME

She Was Homesick For Old Friends and Relatives.

Hempstead, L. I., April 5.—Floretta Whaley, who eloped from Hempstead six years ago, when sixteen years old, with Rev. Jere K. Cooke, rector of St. George's Episcopal church, of which August Belmont is senior warden, returned to the home of her grandmother in Hempstead, with the statement that she was homesick for old friends and relatives.

Cooke did not accompany her, and she stayed only a short time, then returning to New York, where she joined the excommunicated clergyman.

When Cooke and the girl left Hempstead he deserted his wife. The elopement caused a sensation.

Miss Whaley shortly will inherit more than \$25,000 from her father's estate, and upon the death of her grandmother, Mrs. Kaziah Whaley, of Hempstead, she will receive \$50,000 more.

Cooke has gone into the decorating business in San Francisco and has prospered.

NOTE OF WARNING SOUNDED BY T. R.

Says Country Must be a Good Place For All.

Maysville, Ky., April 5. — "Unless this country is a pretty good place for all of us, it will not be a good place for any of us."

This declaration, or note of warning, or whatever it may be construed to be, is the issue in the Republican fight for the presidential nomination, according to Theodore Roosevelt, in a statement as he sped on the second day of his present campaign tour.

The colonel said that hereafter in his campaign he expected to emphasize the argument which he used in his speech in Louisville that in his opinion the outcome of the present contest will be of vital importance in shaping the course of events of the nation in the future.

"I believe that I stated the issue more precisely that I have done before," he said, "when I stated that unless this country is a pretty good place for all of us it will not be a good place for any of us. That is the important point I am trying to bring out in this campaign. This and not the personal fortunes of any one man is the real issue."

As Colonel Roosevelt's private car was attached to a regular train during the first part of his day's run the schedule did not permit of any extended stops, and the colonel made no attempt to deliver political speeches. At several stations he went out on the platform of his car and shook hands with as many of those in the crowds as could reach him.

SIDNA ALLEN REPORTED DEAD

Body Found on Welsh Mountains Said to Resemble Virginia Outlaw.

Reading, Pa., April 5.—A message from Churchtown, near the foot of the Welsh mountains, which divide Berks and Lancaster counties, says the body of a man, said to have the exact facial resemblance and physique as that of Sidna Allen, of Hillsville, Va., a member of the Allen clan, who "shot up" the courtroom and killed several officials at Hillsville some weeks ago, was found on the top of the Welsh mountains, near Reading, by John Whitman, a lumberman, who went to the mountains to cut timber.

J. R. Weaver, undertaker, at whose establishment the body lies, will have the corpse photographed and will send one of the pictures to the Virginia authorities to determine whether or not the body is that of Allen.

Women to "Man" Polls at Chicago.

Chicago, April 5. — Chicago's polls will be "manned" by women suffragists at the state primary election next Tuesday. There will be a woman watcher at each of the 1400 polling places in the city. This was made possible when County Judge Owen directed the election commissioners to allow women to watch the count of the vote on the suffrage proposition on April 9. It will be the first time women have acted as watchers at an election in Illinois.

JAP INQUIRY TO STOP WAR SCARE

President Will Reply to Magdalena Bay Resolution.

MAY REACH SENATE TODAY

Mr. Taft Will Set at Rest Rumors of Japanese Colonization in North America.

Washington, April 5. — President Taft's answer to the Lodge resolution calling for information as to the reported establishment by Japan of a naval base on Magdalena bay, in Mexico, will be designed to set at rest the constant rumors of Japanese colonization in North America, and will be a distinct blow at the bugaboo of a war with Japan.

The president's answer probably will be sent to the senate today. Although it was denied that Senator Lodge was acting in sympathy with the administration, it was admitted that the president will make use of his resolution to set at rest recurrent reports of friction with a friendly power.

Chairman Sulzer, of the house foreign affairs committee, after a talk with President Taft, declared that the Lodge resolution was "the merest buncombe," and that Japan had acquired no rights for a naval station from Mexico.

Huntington Wilson, acting secretary of state, had a short conference with the president about the reply to the resolution. It became known that the answer will be lacking in sensational features, and at the state department it was said that the response would tend generally to discredit reports of Japanese designs on Mexican territory. Mr. Sulzer said:

"The story that Japan, or any syndicate acting for Japan, had acquired rights, directly or indirectly, at Magdalena bay or elsewhere in Mexico, has no foundation in fact. I speak advisedly. In view of our well-settled policy, the assertion that Japan has acquired a base on the Pacific coast of Mexico refutes itself, and is too absurd for serious contradiction by Mexico or Japan."

"The Lodge resolution is well understood by those on the inside, however. It will do no harm, and when the answer is officially filed the atmosphere will be cleared and we will hear no more of Mexico ceding to Japan a naval base on the Pacific."

FIND MEDIEVAL HOUSE

Excavations on the Palatine Unearth Large House of Augustus.

Rome, April 5.—Professor Boni's excavations on the Palatine have led to the discovery of a large house of Augustus built under the foundations of one by Domitian, A. D. 82.

The house has not yet been fully explored in consequence of the subsidence due to medieval earthquakes. The discoveries include a trileaf of paved slabs of yellow marble Egyptian granite and porphyry, an other beautiful pavement of floral design in green and red porphyry and also polychrome decorations of rare marble and mother of pearl which were originally on the face of the walls. The excavations have been stopped pending the razing of the modern buildings.

The discoveries are regarded as of the greatest importance.

PARIS BANDITS ACTIVE

Despite Arrest of One, Robbers Kill Driver and Loot Wagon.

Paris, April 5.—The arrest of Ca rrouy, one of the automobile bandits who killed a chauffeur at Villeneuve St. Georges and held up a bank at Chantilly, killing two of the employees and stealing \$8000, has not put a stop to the extensive series of highway crimes which have thrived France for weeks.

A gang of four bandits leaped into an expressman's wagon in the vicinity of Choisy-Le-Roi, about six miles from Paris, killed the driver by strangling him, looted the wagon of valuables and tossed the corpse to the road side.

The KITCHEN CABINET

HOW many things by season seasoned are To their right praise and true perfection.

But hark! the chiming clocks to dinner call.

A FEW ENTREES.

Entree is a French word meaning "between," so it is a dish coming between courses. It usually follows the heavy meat course, and is a dish prepared in so many ways and of such a variety of materials that he is indeed particular who cannot find one to his liking. There are those entrees which are fritters of all kinds. The following is one often served and generally liked:

Gnocchi a la Romana.—Melt a fourth of a cup of butter, and when bubbling hot add the same amount of flour and the same amount of cornstarch, half a teaspoonful of salt and two cups of hot milk. Cook five minutes, then add the yolks of two eggs slightly beaten and one-half of a cup of grated cheese. Pour into a buttered pan and cool. When cold, turn onto a board, cut in squares or any desired shape, sprinkle with a fourth of a cup of cheese and brown in the oven. Mushrooms are a great favorite as an entree.

Deviled Mushrooms.—Mix one teaspoonful of mustard, a dash of cayenne, a teaspoonful of Worcestershire sauce, and half a teaspoon of paprika. Cover broiled mushrooms with this mixture and serve on slices of toast.

Chestnut Croquettes.—Take a cup of well-cooked and mashed chestnuts, add two tablespoonfuls of thick cream, the yolks of two eggs, a teaspoonful of sugar and a fourth of a teaspoon of vanilla. Shape in balls and roll in egg and crumbs, fry in hot fat.

Bananas, cut in halves and seasoned with salt and lemon juice, then dipped in egg and crumbs and fried make another delightful entree. Garnish with lemon slices and sprigs of parsley. Croquettes of all kinds, fritters of fruit, fish, lobster and clam and vegetable fritters are all served as entrees.

USE OF THE REVOLVING FAN

Investigation Shows These Appliances Enormously Increase Bacterial Content of Air.

That the use of revolving fans enormously increases the number of bacteria in the air (though by what means we are not told) is shown by recent tests in France, according to the Hospital (London). Says this paper:

"The use of ventilators with revolving fans has become very common in large public buildings, especially restaurants and shops. In most cases these ventilators communicate with the outside, and they are installed, of course, with the idea of ventilating and purifying the air within by increasing the rate of exchange with the external atmosphere. But revolving fans are also frequently used, especially in hot weather, simply to produce a cooling effect by setting up a current of air inside. Drs. A. Sartory and A. Filasse have examined the bacteriological effect of these fans and ventilators upon the atmosphere within, and have communicated their results to a recent meeting of the Societe de Biologie. They find that these appliances enormously increase the bacteriological content of the air. Their experiments were numerous and varied, but it will suffice to refer to one or two. Thus in a restaurant of 400 cubic meters analysis of the air before the fan was working showed 12,600 bacteria per cubic meter; after working the fan for one hour, 23,000 bacteria, and after two hours, 45,000 bacteria. In another cafe of 600 cubic meters the number of bacteria rose from 12,000 to 39,000 after the fan was working for one hour. In every instance in fact, the number of bacteria per cubic meter was doubled, or even quadrupled. As the authors point out, with these facts such appliances cannot but be regarded as dangerous and detrimental to the public health."

NERVOUS WOMEN

Lost Sleep and Appetite—Is Now Well and Strong

If men only understood better how fearfully a woman's strength is taxed by her monotonous round of household duties, they would not be surprised at an occasion I spell of "nerves."

When a woman is strong and well she does not know what it is to be nervous—it is only when she is weak that her nerves go to pieces.

Mrs. M. A. Robinson, of West Grove, Pa., says: "I had a nervous trouble for some months affecting both my appetite and my sleep. Soon after I began to take Vinol I felt ever so much better and now I am as well as ever. Vinol did me a lot of good."

Our advice to all nervous, run down women is—Take Vinol and regain your strength, then you will have no more nervous spells. This delicious cod liver and iron remedy without oil always agrees with the stomach, and it has made thousands of weak, discouraged, sickly women well and vigorous. We guarantee it—money back if Vinol does not please you.

THE PRODIGAL JUDGE

is a story of humor and dramatic thrills. Stirring and laughable scenes alternate along its shores like the whirlpools and eddies of a mountain stream. The court scene at Balaam's Cross Roads is a joy, the fight at Slosson's Tavern a thriller, the Judge's jail-breaking a comedy, the surprise at the church door a tragedy, the final climax a whirl of excitement.

Do Not Miss the Opening Chapter

Spare the Rod.

Parents take notice. The advocates of whipping as a means of discipline are accustomed to quote King Solomon as saying: "Spare the rod and spoil the child." What Solomon did say was: "He that spar-eth the rod hateth his son." But the word "rod" in that connection does not necessarily mean corporal punishment. It simply means parental authority and guidance. The same Hebrew word is used in Psalms, xlii, where David says: "The Lord is my shepherd; I shall not want; his rod and his staff they comfort me." The rod was the symbol of authority and power, not a rawhide, a ruler or a hickory stick.—Exchange.

No Fear.

"The paperhanger is one man who is not worried about his business." "Why not?" "Because he rather likes the prospect of its going to the wall."

The Test.

"Can animals reason?" "Just you try if a bulldog can hold his own."
